1.0 Introduction

- 1.1 Coal India Limited (CIL) the state owned coal mining corporate came into being in November 1975. CIL functions through its subsidiaries in 84 mining areas spread over eight (8) states of India. Coal India Limited has 352 mines (as on 1st April, 2020) of which 158 are underground, 174 opencast and 20 mixed mines.
- 1.2 CIL Produces around 83% of India's overall coal production in India where approximately 57% of primary commercial energy is coal dependent, CIL alone meets to the tune of 40% of primary commercial energy requirement. The share of coal is expected to remain high at 48-54% till 2040 and accounts for 76% of total thermal power generating capacity of the Utility sector. CIL further operates 12 coal washeries, (10 coking coal and 2 non-coking coal).
- 1.3 CIL is a Maharatna company – a privileged status conferred by Government of India to select state owned enterprises in order to empower them to expand their operations and emerge as global giants. CIL has seven producing subsidiaries namely Eastern Coalfields Limited (ECL), Bharat Coking Coal Limited (BCCL), Central Coalfields Limited (CCL), Western Coalfields Limited (WCL), South Eastern Coalfields Limited (SECL), Northern Coalfields Limited (NCL) and Mahanadi Coalfields Limited (MCL) and one mine planning and consultancy company that is Central Mine Planning & Design Institute (CMPDI). In addition, CIL has a foreign subsidiary in Mozambique namely Coal India Africana Limitada (CIAL). The mines in Assam i.e. North Eastern Coalfields is managed directly by CIL.
- 1.4 To realize its goal to cater the energy demand of country also through Renewable Energy, CIL has a target to become Net Zero Energy Company by 2024 by establishing 3 GW of solar PV power projects. CIL is currently exploring the following options for development of solar PV projects:
 - a) Development of solar PV projects by CIL and its subsidiaries at own land or any other suitable land at any location in India, as available.
 - b) Development of large-scale solar PV projects to be awarded based on competitive bidding / to be developed in solar parks / bilaterally identified projects / any other large scale projects as applicable.

Feasibility of execution of solar PV projects in CIL's available land as well as in any other suitable land at any location in India is being explored.

(The above list is indicative and has been prepared based on current plan. CIL may modify the list in future at its own discretion.)

- 1.5 Accordingly, CIL plans to empanel EPC-cum-O&M Contractors meeting the specified eligibility criteria and willing to be associated with CIL for development and O&M of its upcoming solar PV projects. The EPC-cum-O&M Contractors will be empaneled for two different categories based on the capacity of the Solar PV plants as per the following:

Request for EOI: Empanelment of Solar PV Power Project EPC-cum-O&M contractors

Category	Solar PV Plant Capacity
Category-I	Up to 100 MWp
Category-II	Above 100 MWp

- 1.6 The Applicant can either apply for both the categories or for any one of the categories, and may be empaneled by CIL subject to fulfillment of the eligibility criteria.
- 1.7 After completion of one (1) year of the empanelment term as specified in this Application document, CIL possesses the right to empanel any new EPC-cum-O&M Contractor, if the said EPC-cum-O&M Contractor meets the eligibility criteria as stipulated in this Application document.
- 1.8 Subsequent to the empanelment of EPC-cum-O&M Contractors, as opportunities for development of solar PV projects will come, CIL will conduct project-wise bidding amongst the empaneled Contractors only, for selection of EPC-cum-O&M Contractor for each of those projects. Details of the concerned project and requirements for minimum technical standards will be specified by CIL during the project-specific bidding. Selection of EPC-cum-O&M Contractor will be done for the concerned solar PV project based on techno-commercial and financial evaluation specific to the concerned project. The selected Contractor will be expected to provide best-in-class technologies.
